STEP 1 Install the Wireless@SGx app on your mobile phone

Go to the **Apple App Store** or **Android Play Store** to download the Wireless@SGx App and launch the application.

1. Click "Let's" to start the configuration on your mobile device.

2. Read the Terms of Use and click "Accept & Continue".

STEP 2A Configure Wireless@SGx account on mobile phones with SIM cards

1. Allow the app to access your location.

iOS users will be redirected to install a Wi-Fi profile in their devices. Follow the prompts to complete the configuration

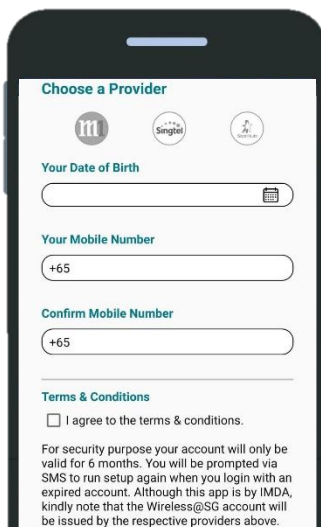

The illustrations above are taken from iPhone interface.

STEP 2B Connect to Wireless@SGx on mobile phones without SIM cards

1. In the app, select “More” and “Setup”.

Choose any service provider and enter your date of birth and local mobile number.

2. Complete the registration by entering the One-Time-Pin (OTP) that you received via SMS.

Cyber security tips (Credit: Content provided by the Cyber Security Agency of Singapore)

- Log out of your Wi-Fi connection or accounts after use.
- Clear browser's cache and internet history after each session.
- Beware of "free" Wi-Fi hotspots masquerading as a legitimate source. Once you have set up Wireless@SGx, you should not manually connect to any Wireless@SG network, and instead let the device connect automatically to the legitimate Wireless@SGx network.

HELPING YOU MAKE CONNECTIONS THAT MATTER

Because life is more colourful when you're connected
